

Exchange Policy

Size, color, and like-for-like product exchanges

QUICK ANSWER

Most eligible items can be exchanged within **30 calendar days of delivery**. The item must be unused, unwashed, and returned with original tags and packaging.

1. What qualifies

- Use the delivery date shown in ShopSphere tracking to calculate the 30-day window.
- Exchanges are for another size or color of the same product. A different product requires a return and a new order.
- Include the order number or gift receipt. The replacement must be available when the request is approved.

2. Start an exchange

- Sign in and select **Orders > View order > Exchange item**. Guest shoppers can use the order-status link in their confirmation email.
- Choose the new variant and reason. ShopSphere sends a prepaid label or QR code within 24 hours.
- Drop off the item within 7 calendar days. The requested replacement is reserved for 5 calendar days, then released if no carrier scan appears.

3. Price and timing

- There is no exchange fee for the first size or color exchange on an eligible item.
- If the replacement costs more, the difference is collected before shipment. If it costs less, the difference is refunded to the original payment method.
- Inspection takes up to 2 business days after receipt. The replacement normally ships within 2 business days after approval.

4. Exclusions and item problems

- Final-sale goods, personalized products, gift cards, opened hygiene products, and marketplace items marked seller-managed are not exchangeable.
- For a damaged, defective, or incorrect item, contact support within 48 hours of delivery and attach photos. ShopSphere covers all related shipping costs.
- If a replacement becomes unavailable, choose a full refund or ShopSphere account credit.

Need help? Use Help Center chat and provide the order number, item name, and preferred size or color.
