

Shipping & Delivery

Processing times, delivery estimates, tracking, and exceptions

QUICK ANSWER

In-stock orders usually process in **1-2 business days**. Delivery estimates begin after shipment and exclude weekends, holidays, preorders, and carrier delays.

1. Delivery options

- Standard delivery takes 3-5 business days after shipment and is free on merchandise subtotals of \$50 or more; otherwise it costs \$5.95.
- Expedited delivery takes 2 business days for \$14.95. Next-business-day delivery costs \$24.95 where available.
- Orders placed after 2:00 p.m. local warehouse time begin processing the next business day. Expedited service does not shorten processing time.

2. Tracking and split shipments

- A shipping email is sent for each package. Tracking can take up to 24 hours to show movement after the label is created.
- Items may ship separately from different warehouses. There is no extra shipping fee when ShopSphere splits an order.
- The order page lists every package, carrier, tracking number, and current delivery estimate.

3. Address and delivery issues

- Shipping addresses can be edited only during the 30-minute order-change window. After shipment, ask the carrier if hold or redirect options are available.
- If tracking says delivered, check entrances, household members, neighbors, parcel lockers, and carrier delivery notes. Allow 24 hours for an early scan.
- Report a package still missing after 24 hours within 7 calendar days of the delivery scan. ShopSphere will investigate and offer replacement or refund when approved.

4. Delays, damage, and undeliverable parcels

- Weather, peak demand, holidays, and remote-area service can extend estimates. Tracking is the most current source of carrier status.
- Report visible shipping damage or missing contents within 48 hours and keep all packaging for review.
- Undeliverable parcels return to ShopSphere. After receipt, merchandise is refunded; original shipping is not refunded when the address supplied at checkout was incorrect.

For delivery help, provide the order number, tracking number, delivery address, and a brief description of the issue.
